

Invest in **ME**

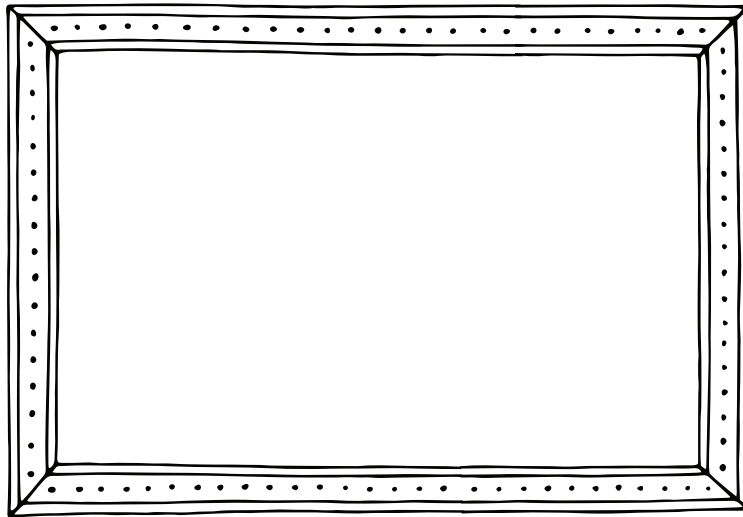

Kindergarten

Family Guide

We all want our children to grow up and be as successful as possible in whatever they decide to do. The Invest in ME Kindergarten initiative has provided activity sheets to help children think about what they want to be.

Children love to hear about what other jobs and careers there are. Continue this activity by talking to them about what you or others in your family do for work. How did you decide to do this? What parts of your job do you like the most?

**I want to be _____
when I grow up!**

Help your Child Dream Big!

Asking children about their likes and activities now can help them connect them to jobs in their community. Use the sheet on the next page to have your child answer a few questions about themselves. You might even find some funny answers!

Kindergarten is a wonderful time to help your child get ready for their bright future. Learn how opening a NextGen 529 account can make a big difference later at BrightFutureforME.com!
